Introduction

The NSDA aims to enhance an individual's employability by certifying completeness with skills. NSDA works to expand the skilling capacity of identified public and private training providers qualitatively and quantitatively. It also aims to establish and operationalize a responsive skill ecosystem and delivery mechanism through a combination of well-defined set of mechanisms and necessary technical supports.

Key priority economic growth sectors identified by the government have been targeted by NSDA to improve current job skills along with existing workforce to ensure required skills to industry standards. Training providers are encouraged and supported to work with industry to address identified skills and knowledge to enable industry growth and increased employment through the provision of market responsive inclusive skills training program. "**General Caregiving**" is selected as one of the priority occupations of **Informal** Sector. This standard is developed to adopt a demand driven approach to training with effective inputs from Industry Skills Councils (ISC's), employer associations and employers.

Generally, a competency standard informs curriculum, learning materials, assessment and certification of trainees enrolled in Skills training. Trainees who successfully pass the assessment will receive a qualification in the National Skills Qualification Framework (NSQF) under Bangladesh National Qualification Framework (BNQF) and will be listed on the NSDA's online portal.

This competency standard is developed to improve skills and knowledge in accordance with the job roles, duties and tasks of the occupation and ensure that the required skills and knowledge are aligned to industry requirements. A series of stakeholder consultations, workshops were held to develop this document.

The document also details the format, sequencing, wording and layout of the Competency Standard for an occupation which is comprised of Units of Competence and its corresponding Elements.

3

Overview

A **competency standard** is a written specification of the knowledge, skills and attitudes required for the performance of an occupation, trade or job corresponding to the industry standard of performance required in the workplace.

The purpose of competency standards is to:

- provide a consistent and reliable set of components for training, recognising and assessing people's skills, and may also have optional support materials
- enable industry recognised qualifications to be awarded through direct assessment of workplace competencies
- encourage the development and delivery of flexible training which suits individual and industry requirements
- encourage learning and assessment in a work-related environment which leads to verifiable workplace outcomes

Competency standards are developed by a working group comprised of representative from NSDA, Key Institutions, ISC, and industry experts to identify the competencies required of an occupation in **Informal sector**.

Competency standards describe the skills, knowledge and attitude needed to perform effectively in the workplace. CS acknowledge that people can achieve technical and vocational competency in many ways by emphasizing what the learner can do, not how or where they learned to do it.

With competency standards, training and assessment may be conducted at the workplace or at training institute or any combination of these.

Competency standards consist of a number of units of competency. A unit of competency describes a distinct work activity that would normally be undertaken by one person in accordance with industry standards.

Units of competency are documented in a standard format that comprises of:

- unit title
- nominal duration
- unit code
- unit descriptor
- elements and performance criteria
- variables and range statement
- curricular content guide
- assessment evidence guide

Together, all the parts of a unit of competency:

- describe a work activity
- guide the assessor to determine whether the candidate is competent or not yet competent

The ensuing sections of this document comprise of a description of the relevant occupation, trade or job with all the key components of a unit of competency, including:

- a chart with an overview of all Units of Competency for the relevant occupation, trade or job including the Unit Codes and the Unit of Competency titles and corresponding Elements
- the Competency Standard that includes the Unit of Competency, Unit Descriptor, Elements and Performance Criteria, Range of Variables, Curricular Content Guide and Assessment Evidence Guide.

NSQF Level Descriptors

NSQF levels	Knowledge	Skills	Occupational Responsibilities	Job Classification
NSQF Level 6 (NSC 6)	Present and defend opinions by making judgments about information, validity of ideas, or quality of work based on a set of criteria; organize values into priorities; resolve conflicts at workplace; analyze, compare, relate and evaluate values.	Use wider range of skills according to situation; suggest critical and creative skills to perform job/tasks in a range of situations.	Execute work plans. Disseminate information to lower management. Inspire and provide guidance to low-level management and teams. Diagnose and resolve problems within and among work groups;	Mid-Level Manager

Generic Competencies

Unit Code and Title	GC002L2V1: Apply OSH Procedure in the		
Unit Coue and Thie	Workplace		
Unit Descriptor	This unit covers the knowledge, skills and attitudes (KSA) required in applying OSH procedures in the workplace. It specifically includes identifying OHS policies and procedures, following OSH procedure, reporting to emergencies, and maintaining personal well-being.		
Nominal Hours	15 Hours		
	Performance Criteria		
Elements of Competency	Bold & Underlined terms are elaborated in the Range of		
	Variables		
1. Identify OSH policies	1.1. OSH policies and safe operating procedures are		
and procedures.	accessed and stated		
	1.2. Safety signs and symbols are identified and followed		
	1.3. Emergency response, evacuation procedures and other		
	contingency measures are determined according to		
	workplace requirements		
2. Follow OSH procedure	2.1 Personal protective equipment (PPE) is selected and		
	collected as required		
	2.2 Personal protective equipment (PPE) is correctly used in		
	accordance with organization OSH procedures and		
	practices		
	2.3 A clear and tidy workplace is maintained as per		
	workplace standard		
	2.4 PPE is maintained to keep them operational and		
2 D (1 1 1	compliant with OSH regulations		
3. Report hazards and	3.1 Hazards and risks are identified, assessed and controlled		
risks.	3.2 Incidents arising from hazards and risks are reported to		
	designated authority		
4. Respond to	4.1 Alarms and warning devices are responded		
emergencies	4.2 Workplace emergency procedures are followed		
	4.3 <u>Contingency measures</u> during workplace accidents, fire		
	and other emergencies are recognized and followed in		
	accordance with organization procedures		
	4.4 Frist aid procedures is applied during emergency		
	situations		
5. Maintain personal well-	5.1 OSH policies and procedures are adhered to		
being	5.2 OSH awareness programs are participated in as per		
	workplace guidelines and procedures		

	5.3 Corrective actions are implemented to correct unsafe
	condition in the workplace
	5.4 <u>"Fit to work" records</u> are updated and maintained
	according to workplace requirements
Range of Variables	
Variables	Range (may include but not limited to):
1. OHS Policies	1.1. Bangladesh standards for OHS
	1.2. Fire Safety Rules and Regulations
	1.3. Code of Practice
	1.4. Industry Guidelines
2. Safe Operating	2.1 Orientation on emergency exits, fire extinguishers, fire
Procedures	escape, etc.
	2.2 Emergency procedures
	2.3 First Aid procedures
	2.4 Tagging procedures
	2.5 Use of PPE
	2.6 Safety procedures for hazardous substances
3. Safety Signs and	3.1 Direction signs (exit, emergency exit, etc.)
symbols	3.2 First aid signs
	3.3 Danger Tags
	3.4 Hazard signs
	3.5 Safety tags
	3.6 Warning signs
4. Personal Protective	4.1 Gas Mask
Equipment (PPE)	4.2 Gloves
	4.3 Safety boots
	4.4 Face mask
	4.5 Overalls
	4.6 Goggles and safety glasses
	4.7 Sun block
	4.8 Chemical/Gas detectors
5. Hazards	5.1 Chemical hazards
	5.2 Biological hazards
	5.3 Physical Hazards
	5.4 Mechanical and Electrical Hazard
	5.5 Mental hazard
	5.6 Ergonomic hazard
6. Emergency Procedures	6.1 Fire fighting
	6.2 Earthquake
	6.3 Medical and first aid
	6.4 evacuation

7. Contingency measures	7.1	Evacuation
	7.2	Isolation
	7.3	Decontamination
8. "Fit to Work" records	8.1	Medical Certificate every year
	8.2	Accident reports, if any
	8.3	Eye vision certificate

Evidence Guide

The evidence must be authentic, valid, sufficient, reliable, consistent, recent and meet all requirements of current version of the Unit of Competency

	1	
	Asse	essment required evidence that the candidate:
	1.1	Stated OHS policies and safe operating procedures
	1.2	followed safety signs and symbols
1. Critical aspects of	1.3	used personal protective equipment (PPE)
competency	1.4	maintained workplace clear and tidy
competency	1.5	assessed and Controlled hazards
	1.6	followed emergency procedures
	1.7	followed contingency measures
	1.8	implemented corrective actions
	2.1	Define OHS
	2.2	OHS Workplace Policies and Procedures
	2.3	Work Safety Procedures
2. Underpinning	2.4	Emergency Procedures
knowledge	2.5	Hazard control procedure
Kilowieuge	2.6	Different types of Hazards
	2.7	PPE and there uses
	2.8	Personal Hygiene Practices
	2.9	OHS Awareness
	3.1	Accessing OHS policies
	3.2	Handling of PPE
3. Underpinning skills	3.3	Handling cleaning tools and equipment
	3.4	Writing report
	3.5	Responding to emergency procedures
	4.1	Commitment to occupational health and safety
	4.2	Sincere and honest to duties
	4.3	Promptness in carrying out activities
4. Required attitude	4.4	Environmental concerns
	4.5	Eagerness to learn
	4.6	Tidiness and timeliness
	4.7	Respect of peers and seniors in workplace
	4.8	Communicate with peers and seniors in workplace
5. Resource implications	5.1	Workplace

	5.2 Equipment and outfits appropriate in applying safety
	measures
	5.3 Tools, materials and documentation required
	5.4 OHS Policies and Procedures
6. Methods of assessment	Competency should be assessed by:
	6.1 Written test
	6.2 Demonstration
	6.3 Oral Questioning
	6.4 Portfolio
7. Context of assessment	7.1 Competency assessment must be done in NSDA
	accredited assessment centre
	7.2 Assessment should be done by a NSDA
	certified/nominated assessor
Accreditation Requireme	nts

Unit Code and Title	GU003L2V1: Carryout Workplace Interaction			
	This unit covers the knowledge, skills and attitude required to			
	carry out workplace interaction.			
	It specifically includes interpreting workplace communication			
Unit Descriptor	and etiquette, reading and understanding workplace documents,			
	participating in workplace meetings and discussions and			
	practicing professional ethics at workplace.			
Nominal Hours	15 Hours

	2.9 OSH information		
	2.10 Signs		
	3.1 HR Department		
3. Appropriate sources	3.2 Managers		
	3.3 Supervisors		
Evidence Guide	antic valid sufficient reliable consistent recent and most all		

The evidence must be authentic, valid, sufficient, reliable, consistent, recent and meet all requirements of current version of the Unit of Competency.

 Critical aspects of competency 	1.1 Maintained workplace communication and etiquette1.2 Followed workplace instructions and symbols1.3 Followed team meeting and etiquette
2. Underpinning knowledge	2.1 Workplace communication and etiquette2.2 Workplace documents, signs and symbols2.3 Meeting procedure and etiquette
3. Underpinning skills	3.1 Maintaining workplace communication and etiquette3.2 Following workplace instructions and symbols3.3 Following team meeting and etiquette
4. Underpinning attitude	 4.1 Commitment to occupational health and safety 4.2 Promptness in carrying out activities 4.3 Sincere and honest to duties 4.4 Environmental concerns 4.5 Eagerness to learn 4.6 Tidiness and timeliness 4.7 Respect for rights of peers and seniors in workplace 4.8 Communication with peers and seniors in workplace

5. Resource implications	The following resources must be provided:		
	5.1 Work place Procedure		
	5.2 Materials relevant to the proposed activity		
	5.3 All tools, equipment, material and documentation		
	required.		
	5.4 Relevant specifications or work instructions		
	Methods of assessment may include but not limited to:		
	6.1 Written test		
6. Methods of assessment	6.2 Demonstration		
	6.3 Oral questioning		
	6.4 Portfolio		
7. Context of assessment	7.1 Competency assessment must be done in a training center		
	or in an actual or simulated work place after Completion		
	of the training module		
	7.2 Assessment should be done by NSDA certified assessor		
Accorditation Paguirama	nta		

Unit Code and Title	GU006L3V1: Apply Basic IT Skills	
Nominal Hours	20 Hours	
Unit Descriptor	This unit covers the basic knowledge, skills and attitude required to work with IT Tools. It specifically includes Identifying and using most commonly used IT Tools, operating computer, working with word processing software, using spread sheet to create /prepare worksheets, using presentation packages to create / prepare presentation, printing the documents and using the internet and access e-Mail.	
	Performance Criteria	
Elements of Competency	Bold and Underlined terms are elaborated in the Range of	
	Variables Training Components.	
1. Identify and use most	1.1 Context of IT is interpreted	
commonly used IT Tools	1.2 Commonly used <u>IT tools</u> are identified	
	1.3 Safe work practice and OSH Standards are followed	
2. Operate Computer.	 2.1 <u>Peripherals</u> are checked and connected with computer as per standard 2.2 Power cords / adapter are connected with computer and power outlets socket safely. 2.3 Computer is switched on gently. 2.4 PC <u>desktop / GUI</u> settings are arranged and customized as per requirement. 2.5 Files and folders are created, opened, copied, renamed, deleted and sorted as per requirement. 2.6 Properties of files and folders are viewed and searched. 2.7 Disks are defragmented, formatted as per requirement. 	
3. Work with word processing software.	 3.1 Word Processing software is selected and started 3.2 Basic typing technique is demonstrated 3.3 Documents are created as per requirement in personal use and office environment 3.4 Contents are entered. 3.5 Documents are <u>formatted</u>. 	
 Use spread sheet to create /prepare worksheets 	 4.1 Spreadsheet are selected and started. 4.2 Worksheets are created as per requirement in Personal use and office environment. 4.3 Data are entered 4.4 Functions are used for calculating and editing logical operation 4.5 Sheets are formatted as per requirement. 4.6 Charts are created.

Evidence Guide		

The evidence must be authentic, valid, sufficient, reliable, consistent and recent and meet the		
requirements of the current version of the Unit of Competency.		
 Critical Aspects of Competency 	Assessment required evidence that the candidate:	
	1.1 created, opened, copied, renamed, deleted and sorted	
	files and folders as per requirement.	
	1.2 completed application software Installations as per	
	standard	
	1.3 performed simple trouble shooting with Computer	
	1.4 Created email accounts.	
	1.5 used email account for online platforms purpose	
	2.1 Basic competent of PC	
	2.2 IT and IT Tools	
	2.3 Different type of software and application packages	
2. Underpinning	2.4 Use of word processor, spread sheet and presentation	
Knowledge	software	
	2.5 Different type of math and logical functions	
	2.6 Computer Trouble Shooting	
	2.7 Techniques to access internet	
	3.1 Identifying and use IT Tools	
	3.2 Demonstrating typing on word processing software	
	3.3 Saving and retrieving documents on Word Processing	
	software.	
	3.4 Demonstrated ability to create email accounts	
3. Underpinning Skills	3.5 Opening an email account and use it for different	
	purpose.	
	3.6 Configured appropriate printer settings and printed the	
	document	
	3.7 Used functions for calculating and editing logical	
	operation in spread sheet	
	4.1 Commitment to occupational health and safety4.2 Environmental concerns	
	4.3 Eagerness to learn	
4. Underpinning Attitudes	4.4 Tidiness and timeliness	
	4.5 Respect for rights of peers and seniors in workplace	
	4.6 Communication with peers and seniors in workplace	
	The following resources must be provided:	
	5.1 Workplace (simulated or actual)	
	5.2 IT Tools	
5. Resource Implications	5.3 Computers with word processing application	
_	5.4 Internet connection	
	5.5 Presentations	
	5.6 Learning manuals	

6. Methods of Assessment	6.1 Written Test
	6.2 Demonstration
	6.3 Oral Questioning
	6.4 Portfolio
7. Context of Assessment	 7.1 Competency assessment must be done in a NSDA accredited assessment centre 7.2 Assessment should be done by an NSDA certified/ nominated assessor

Unit Code and Title	GU008L2V1: Work in the Team Environment		
	This unit covers the knowledge, skills and attitudes (KSAs) required in working in the team environment.		
Unit Descriptor	It includes defining team role and scope, identifying individual role and responsibility. Participating in team discussions and working as a team member.		
Nominal Hours	20 Hours		
	Performance Criteria		
Elements of Competency	Bold & Underlined terms are elaborated in the Range of		
	Variables		
	1.1. Role and objectives of the team are defined		
1. Define team role and	1.2. Team structure, responsibilities and reporting relations		
scope	are identified from team discussions and other external		
	sources		
2. Identify individual role	2.1 Individual roles and responsibilities of <u>team members</u>		
and responsibility	are identified		
	2.2 Reporting relationships among team members are		
	defined and clarified		
	2.3 Reporting relationships external to the team are defined and clarified

Sector Specific Competencies

Unit Code and Title	SUINF001L2V1: Interpret the ground rules of
Unit Coue and Thie	caregiving
Unit Descriptor	This unit covers the knowledge, skills and attitudes required to interpret the ground rule of care giving. It includes interpreting basic knowledge of caregiving, interpreting the roles and responsibilities of a caregiver, explaining caregiving rules and ethics, ensuring a safe working environment, interpreting communicable & non- communicable diseases, interpreting care giver's basic right, and interpreting enabling conditions for caregivers.
Nominal Hours	20 Hours
Elements of competency	Performance Criteria <u>Bold & italicized</u> terms are elaborated in the Range of Variables
1. Interpret basic knowledge of caregiving	 Principle of caregiving is recognized. Basics of caregiving is identified. Common medical terminologies are stated. <u>Common medical equipment</u> is identified. <u>Components patient's file</u> are interpreted. Communicable and non-communicable diseases are distinguished.
2. Interpret the roles and responsibilities of a caregiver	 2.1 The working environment is recognized. 2.2 Standards of caregiving is identified. 2.3 Duties of a caregiver are explained. 2.4 Problems are prioritized and solved. 2.5 The client is advocated. 2.6 Day-to-day activity management is outlined.
3. Explain caregiving rules and ethics	 3.1 Legal and ethical aspects of care giving are interpreted. 3.2 Care giver code of ethics is recognized. 3.3 Rights of clients are recognized. 3.4 Fundamentals of professionalism in caregiving are interpreted. 3.5 Standard caregiving rules are identified.
4. Ensure a safe working environment	 4.1 Physical working environment is recognized. 4.2 Care of appliances is taken to prevent accidents. 4.3 Causes and prevention of fall risks are identified. 4.4 Necessary medication is taken as per organization standard.

	5.1	Communicable & non-communicable diseases are
 Interpret communicable & non-communicable diseases 	5.1	identified and differentiated.
	50	
	5.2	Appropriate measures to protect clients from communicable diseases are illustrated.
	5 2	
	5.3	Supports requirements to the clients with non-
	<u> </u>	communicable diseases are interpreted.
6. Interpret care giver's	6.1	Basic rights of care giver are explained.
basic right	6.2	Aspects of caregiver are identified.
	6.3	Rights and dignity of care giver are interpreted.
	7.1	Counseling need for individual/group/family is explained.
7. Interpret enabling	7.2	Early signs of caregiver's distress are recognized.
conditions for	7.3	Coping with stress & need for support of the care givers
caregivers	7.4	Positive attitude and leadership are interpreted.
C .	7.5	Importance of interpersonal relationship is explained.
	7.6	Needs of disabled persons are differentiated.

Accreditation Requirements		

Unit Code and Title	SUINF003L2V1: Carryout basic first aid		
Unit Descriptor	This unit covers the knowledge, skills and attitudes required to carry out basic first aid. This includes assessing accidental situation, performing primary response to the victim, performing secondary response to casualty.		
Nominal Hours	30 Hours		
Elements of competency	Performance Criteria Bold & underline terms are elaborated in the Range of Variables		
 Assess accidental situation 	 1.1 Emergency action principle of First Aid is applied based on established procedure 1.2 Physical hazards to self and casualty's health and safety are identified based on established procedure 1.3 Immediate risks to self and casualty are minimized by controlled in accordance with OHS requirements 1.4 First Aid kit must be available at all times based on OSH Law and First Aid manual 		
2. Perform primary response to the victim	 2.1 Principles of Body Substance Isolation is applied based on standard First Aid procedure 2.2 Responses and level of consciousness of the victim or casualty are checked based on established standard first aid procedure 2.3 Potentially life-threatening condition is identified and then appropriate treatment is began based on first aid standard procedure 2.4 Activate medical assistance is applied based on established first aid procedure 2.5 Basic life support is applied based on established first aid procedure 		
3. Perform secondary response to casualty	 3.1 <u>Detailed history of casualty</u> is obtained based on established standard procedure of first aid 3.2 <u>Physical examination</u> of the casualty is done based on established procedure 3.3 <u>Vital signs of casualty</u> are obtained based on established standard procedure of first aid 3.4 Casualty is endorsed to physician or paramedic based on standard procedure of first aid 3.5 <u>Written incident report</u> is submitted based on standard procedure of company or home facility 		
Range of Variables			
Variable	Range (may include but not limited to):		

	1 1	
	1.1	Concept of first aid
	1.2	Objectives of first aid
	1.3	Role of first aider
	1.4	Survey the scene
	1.5	Is the scene safe?
1. Emergency action	1.6	What happened?
principles of first aid	1.7	How many people are injured?
	1.8	Are there by standers who can help?
	1.9	Is there available equipment to be used?
	1.10	Identify yourself as First aider with your PPEs on
	1.11	Wear mask and gloves
	1.12	Get consent to give care
	2.1	Quick assessment of the surroundings to identify
	2.2	physical hazards like
	2.3	Falls
2. Physical hazards	2.4	Slips
	2.5	Working from heights
	2.6	Collapsed of building
	2.7 2.8	Fire Presence of toxic chemicals, etc.
3. Immediate risk to self		
	3.1 3.2	Injury of the first aider and further injury to casualty
and casualty		Death which may occur either or both first aider and casualty
	4.1 4.2	Digital BP apparatus Digital thermometer
	4.2	Pulse oximeter
	4.4	Cotton balls
	4.5	Alcohol
	4.6	Disposable gloves (1 box)
	4.7	Disposable mask (1 box)
4. First aid kit	4.8	Cervical collar
	4.9	Surgical scissors
		Bandage scissors
		Forceps
		Splint Storilo gouzo pode
		Sterile gauze pads Spine board
		Ice cap
		Hot water bag
5. Principles of body substance isolation	5.1	Definition of Body substance Isolation (BSI)
	5.2	Mode of transmission methods
	5.3	Blood or fluid splash
	5.4	Surface contamination
	5.5	Needle stick exposure
	5.6	Oral contamination due to improper handwashing
	5.7	Proper handwashing (WHO standard)
	5.8	Proper wearing, removal and disposal of mask and Gloves
		(PPE)

	5.9 Wearing of HazMat (Hazardous material suit) as needed			
	5.10 Use of disinfectant			
	6.1 Awake			
	6.2 Confused			
	6.3 Disoriented			
	6.4 Lethargic			
	6.5 Obtunded			
	6.6 Stuporous

	6.7.1 Protect spine if necessary			
	6.7.2 Check C-A-B			
	6.7.3 Circulation			
	6.7.4 Airway 6.7.5 Broothing			
	6.7.5 Breathing			
	7.1 Types of unconscious victim (* B-breathing: *P – pulse) 7.1 L + B + B = Supreme			
	7.1.1 + B + P = Syncope			
	7.1.2 - B + P = Respiratory arrest			
	7.1.3 - B - P = Cardiac arrest			
	7.2 TRIAGE (TRIAGE PRIORITY)			
	7.3 Casualty who has life threatening condition that involves C-			
	A-B. Treat this victim first and transport as soon as possible			
	7.3.1 Airway and breathing difficulties			
	7.3.2Choking			
	7.3.3Uncontrolled and severe bleeding			
	7.3.4Decreased level of consciousness			
	7.3.5 Shock (different types)			
	7.3.6Severe burns (2nd and 3rd degree) with difficulty of breathing			
7. Potentially life-	7.4 Person/casualty who are injured but the condition is not life			
threatening condition	threatening. Treatment can be delayed temporarily			
	7.4.1Burns without airway problem			
	7.4.2 Major or multiple or joint injury			
	7.4.3Back injuries with or without spinal cord injury			
	7.5 Person who is injured but only minor. Treatment can be			
	delayed			
	7.5.1 Minor fracture			
	7.5.2minor soft tissue injury			
	7.6 Lowest priority (Black) person who is already dead or have			
	little chance of survival			
	7.6.1 Obvious death			
	7.6.2Obviously non-survivable injury			
	7.6.2.1Major open brain trauma			
	7.6.2.2Full cardiac arrest			
	8.1 Arrange transfer facilities			
8. Activate medical	8.2 Phone first – activate or call medical assistance then return to			
assistance	the victim			
	8.3 Phone fast – CPR first before calling for medical assistance			
	9.1 Basic life support definition			
9. Basic life support	9.2 Respiratory arrest			
	9.3 Cardiac arrest			

	9.4 Artificial respiration or rescue breathing
	9.5 Cardiopulmonary resuscitation
	9.6 CPR for infant
	9.7 CPR for children
	9.8 CPR for adult
	9.9 Follow CPR under AHA (American Heart Association C-A-
	B procedure)
	9.10 Check Circulation – Airway - Breathing
	9.11 Carotid pulse for adult
	9.12 Brachial pulse for infant
	9.13 Open airway
	9.14 Head tilt chin lift maneuver
	9.15 Jaw thrust maneuver
	9.16 Modified jaw thrust maneuver
	9.17 When to stop CPR
	9.18 Spontaneous breathing and pulse have occurred
	9.19 Turned over to the physician or paramedics
	9.20 Operator or first aider is already exhausted
	9.21 Physician assumed responsibility and if the casualty has been
	declared dead
	10.1 Signs and symptoms of the episode
	10.2 What occurred at the onset of accident
	10.3 Any known allergies
	10.4 Present medication
	10.5 Name of medication
10. Detailed history of	10.6 Frequency of medication
casualty	10.7 Dosage
2	10.8 Time when last taken
	10.9 Past history of casualty's medical condition
	10.10 Last oral intake, last meal, drink or
	10.11 medication taken prior to accident
	10.12 Events leading to injury or illness
	11.1 Begin care and assessment in the order of
	11.2 importance:
	11.3 $A - Airway$
	11.4 B – Breathing
	11.5 C – Circulation
	11.6 D – Disabilities which includes mental status
	11.7 E - Expose any body part that is fractured
	11.8 like extremities but still maintain casualty's
11.Physical examination	11.9 privacy and dignity
	11.10 Techniques of physical examination
	11.11 Inspection
	11.12 Palpation
	11.13 Auscultation
	11.14 Percussion
	11.14 Teleussion 11.15 Examine the following:

Occupation Specific Competencies

Unit Code and Title	OUINFCG01L2V1: Perform Health Screening	
Nominal Hours	30 Hours	
Unit Descriptor	 This unit covers the knowledge, skills and attitudes required to perform health screening. It includes interpreting the basis of human body system, selecting and collecting tools, materials and equipment, measuring temperature, pulse, respiration and blood pressure (b.p). measuring height and weight, blood glucose, maintaining intake output chart and workplace and store tools. 	
	Performance Criteria	
Elements of Competency	Bold & Underlined terms are elaborated in the Range of	
	Variables	
 Interpret the basics of human body system Select and collect tools, materials and equipment 	 1.1 Different body parts, vital organs and anatomical planes are identified 1.2 Healthy body systems are recognized 1.3 Basic functions of human body system are explained 1.4 Human growth and development are explained 1.5 Normal physical movements and postures are illustrated 1.6 Common diseases related to different age group are explained 1.7 Vital signs are interpreted 2.1 Personal Protective Equipment (PPE) is identified and used 2.2 Materials, Tools and equipment are checked for proper functioning 2.4 Tools, materials and equipment are checked for proper functioning 	
	2.4 Tools, materials and equipment are prepared for measurement of vital sign	
3. Measure temperature, pulse, respiration, and Blood Pressure (B.P)	 3.1 Tools are collected and prepared as per job requirement 3.2 Body temperature is measured and recorded in temperature chart as per standard 3.3 Pulse is counted as per standard procedure 3.4 Respiration is counted as per standard procedure 3.5 Pulse and respiration are recorded and reported 3.6 BP is measured and recorded as per standard procedure 	
4. Measure height and weight	 4.1 Body height and weight are measured and recorded as per work place practices 4.2 Body Mass Index (BMI) is calculated and documented as per workplace procedure 	

 5. Measure blood glucose 6. Maintain intake output 	 5.1 Client is positioned and prepared as per job requirement 5.2 Instruments are checked and assembled as per manufacturer specification 5.3 Fingertip is cleaned and pricked as per standard procedure 5.4 Blood is collected using strip 5.5 Blood glucose is measured and documented as per work place practices 6.1. Intake fluid is measured as per standard 6.2. Output fluid is measured as per standard
chart	6.3. Intake output chart is maintained and reported as per workplace practices
7. Maintain workplace and store tools	 7.1 Used tools are cleaned as per standard procedure 7.2 Tools are stored as per workplace procedure 7.3 Waste materials are disposed as per workplace standard 7.4 Unused materials are restored as per workplace standard 7.5 Workplace is cleaned as per workplace standard 7.6 Personal hygiene is maintained as per workplace
Range of Variables	
Variable	Range (may include but not limited to):
1. Body parts & vital organs	1.1 Axial body parts 1.1.1 Trunk 1.1.2 Spine 1.1.3 Head 1.1.4 Neck 1.1.5 Chest 1.1.6 Abdomen 1.2 Upper and lower extremities 1.2.1 Shoulder 1.2.2 Hand 1.2.3 Elbow 1.2.4 Wrist 1.2.5 Finger 1.2.6 Hip 1.2.7 Knee 1.2.8 Ankle 1.2.9 Leg 1.2.10 Toe 1.3 Vital Organs 1.3.1 Brain 1.3.2 Heart 1.3.3 Kidneys 1.3.4 liver 1.3.5 Lungs

	2.1 Sagittal

7. Personal Protective	7.3 Hand gloves
Equipment (PPE)	7.4 Shoe cover
	7.5 Safety goggles
	7.6 Masks
	8.1 Pen (Black)
	8.2 Pencil (red)
	8.3 Record chart
	8.4 Note book/ plain paper
8. Materials	8.5 Clock
	8.6 Simulator model
	8.7 Artery forceps
	8.8 Hand washing
	8.9 Tissue paper
	9.1 Stethoscope
	9.2 Blood pressure machine (Analogue & Digital)
	9.3 Clinical thermometer (Analogue & Digital)
	9.4 Measuring jar/Bag
	9.5 Weight machine
	9.6 Measuring tape
9. Tools and equipment	9.7 Height measuring scale
	9.8 Glucometer
	9.9 Lancet
	9.10Lancet pen
	9.11Test strip
	9.12Insulin pen
	9.13Pulse oximeter
	9.14Waste disposal bin
Evidence Guide	
	nentic, valid, sufficient, reliable, consistent, recent and meet all
requirements of current vers	sion of the Unit of Competency.
1. Critical aspect of competency	1.1 Measured temperature, pulse, respiration, and Blood
	Pressure (B.P)
	1.2 Measured blood glucose
	1.3 Maintained intake output chart
2. Underpinning	2.1 Consent is taken from client
knowledge	2.2 Aseptic precaution

[
	2.3 Normal/ physiological range of blood pressure, body	
	temperature, pulse and respiration.	
	2.4 BMI.	
	2.5 Measuring technique of body height and weight.	
	2.6 Instruments to measure vital signs	
	2.7 Documentation of vital signs reading.	
	3.1 Applying tools and instrument recording method.	
	3.2 Identifying emergency situation and taking necessary	
	action.	
3. Underpinning skills	3.3 Measuring temperature, blood pressure, height and	
	weight, blood glucose, counting pulse and respiration	
	3.4 Maintaining intake output chart.	
	4.1 Commitment to occupational safety and health.	
	4.2 Promptness in carrying out activities.	
	4.3 Sincere and honest to duties.	
	4.4 Eagerness to learn.	
4. Required attitudes	4.5 Tidiness and timeliness.	
	4.6 Environmental concerns.	
	4.7 Respect for rights of peers and seniors at workplace.	
	4.8 Communicate with peers and seniors at workplace.	
	The following resources must be available:	
	5.1 Workplace (actual or simulated)	
5. Resource implication	5.2 Required tools & equipment	
	5.3 Facilities and relevant accessories for care giving	
	5.4 Required teaching aids	
	5.5 Learning materials.	
	Methods of assessment may include but not limited to:	
6. Methods of assessment	6.1 Written test	
	6.2 Demonstration	
	6.3 Oral questioning	
	6.4 Portfolio/case study	
	7.1 Competency assessment must be done in NSDA	
7. Context of assessment	accredited assessment center.	
A	7.2 Assessment should be done by NSDA certified assessor.	
Accreditation Requirements		

Unit code and Title	OUINFCG02L2V1: Assist Activities of Daily Living (ADLs)	
Nominal Hours	40 Hours	
Unit Descriptor	This unit covers the knowledge, skills and attitudes required to assist clients in Activities of Daily Living (ADLs). It includes assisting to maintain oral hygiene, toileting and changing diapers, dressing & grooming, showering/bathing and clients with domestic works as per need, feeding the client according to the nutritional needs and assisting to perform home exercise.	
Elements of Competency	Performance Criteria Bold & Underlined terms are elaborated in the Range of Variables	
1. Maintain oral hygiene	 1.1 <u>Personal Protective Equipment (PPE)</u> is used. 1.2 Teeth are brushed using tools and materials (oral hygiene) as per standard procedure 1.3 Tongue is cleaned as per the requirements 1.4 Dentures are cleaned if required 1.5 Dental floss is appropriately used, if required 1.6 Work area is cleaned and disposed as per workplace procedure 	
2. Assist in toileting	 2.1 Personal Protective Equipment (PPE) is used 2.2 Suitable position and tools and materials (toileting) are identified as per client's condition and preference 2.3 Privacy is maintained as per client need 2.4 Assistance for toileting is provided as per requirement. 2.5 Diaper is changed as per standard procedure if required. 2.6 Patient is cleaned and repositioned. 2.7 Work area is cleaned and disposed as per workplace procedure. 2.8 Routine checking of diaper is conducted as per care plan. 	
3. Assist in bathing	 3.1 Personal Protective Equipment (PPE) is used. 3.2 Client is explained and encouraged to take showers. 3.3 Bathing techniques and tools, materials are identified as per client's condition and preference. 3.4 Privacy is maintained as per client need 3.5 Assistance for bathing is provided as per client's condition and preference. 3.6 Clients are wiped and repositioned. 3.7 Work area is cleaned and disposed as per workplace procedure. 	

	4.1 Client's needs are identified.
4. Assist in grooming	4.2 Client is explained and encouraged for dressing and
	grooming.
	4.3 Tools and materials for dressing and grooming are
	identified as per client condition and preference.
	4.4 Dressing & grooming activities are performed.
	4.5 Patient is repositioned if required.
	4.6 Work area is cleaned and disposed as per workplace
	procedure.
	5.1 Nutrition chart and special dietary needs are interpreted
	and followed
	5.2 Feeding procedure and positions are identified as per
	job requirement
	5.3 <u>Tools and materials</u> are identified as per client's
5. Feed the client	condition and preference
	5.4 Assistance for feeding is provided using feeding tools
	as per requirement
	5.5 NG tube feeding is provided if required
	5.6 Work area is cleaned and disposed as per workplace
	procedure
	5.7 Feeding schedule is maintained as per care plan
	6.1. Clients are encouraged to perform regular home exercise and body movements
C Assist to home	6.2. <u>Types of home exercise</u> are identified
6. Assist to home exercise	6.3. Home exercises are facilitated as required.
excretise	6.4. Safety precaution is maintained during exercise.
	6.5. Client is repositioned if required.
	7.1 Safety measures are taken to prevent physical injuries
7. Carry out Lifting and	7.2 Positioning is maintained as per requirement
Transferring clients	7.3 <u>Lifting and Transfer Techniques</u> are applied as per
	requirement
Range of Variables

Unit Code and Title	OUINFCG03L2V1: Perform Clinical Caregiving
Nominal Hours	40 Hours
Unit Descriptor	This unit covers the knowledge, skills and attitudes required to perform clinical caregiving. It includes implementing and monitoring infection control policies and procedures, administering drugs, collecting sample, performing common wound dressing, positioning and transfer the client, caring of catheter and colostomy bags, and assisting to use supportive devices.
Elements of Competency	Performance Criteria <u>Bold & Underlined</u> terms are elaborated in the Range of Variables
 Implement and monitor infection control policies and procedures 	 1.1 Infection control policies and procedures are interpreted 1.2 Workplace infection control policy and procedure are integrated into work practices 1.3 Infection control performance is monitored and improved
2. Administer drugs	 2.1 Need of administering drugs is identified 2.2 Scope of administering drugs is explained 2.3 Drugs are checked routinely for name, instructions and expiry date 2.4 Drugs are administered through routes of drug administration according to the physician's advice 2.5 Adverse effect of drugs (if any) is reported to appropriate authority 2.6 Drugs are stored according to the standard procedure 2.7 All administered medications are documented and preserved in designated formats in client's file
3. Collect sample	 3.1 Personal Protective Equipment (PPE) is collected and worn as per job requirement 3.2 Consent is taken for sample collection from responsible person 3.3 Instructions are followed and reviewed for sample collection 3.4 Different sample collection instruments are identified and organized 3.5 Samples are collected, labeled and transferred to laboratory
4. Perform common wound dressing	 4.1 Personal Protective Equipment (PPE) is collected and worn as per job requirement 4.2 <u>Common wounds</u> are identified 4.3 <u>Dressing materials</u> are selected to apply dressings

		4.4 Dressing is applied following proper procedures	
		4.5 Client is placed in a comfortable position.	
		4.6 Area is cleaned and used items are disposed.	
		4.7 Pressure sore is explained and preventive measures are	
		taken.	
		5.1 Personal Protective Equipment (PPE) is worn	
		5.2 Standard precaution is maintained	
		5.3 Urine bag, catheter care, colostomy bag is interpreted	
5.	Care of catheter and	5.4 Urine bag is cleaned and readjusted as required	
	colostomy bags	5.5 Colostomy bag is cleaned and disposed	
		5.6 Color and smell of the urine and stool are checked and	
		reported as required	
		5.7 Urine output is measured and documented as per care plan	
		6.1 <u>Supportive devices</u> are identified.	
		6.2 Clients are encouraged and motivated to properly use	
6.	Assist to use	supportive devise.	
0.	supportive devices	6.3 Supportive devices are used accordingly.	
	supportive devices	6.4 Safety measures are followed.	
		6.5 Cleaning & maintenance of supportive devices are	
		performed.

Unit Code and Title	OUINFCG04L2V1: Maintain Nutrition, Food Safety and Diet plan
Unit Descriptor	This unit covers to the knowledge, skills and attitudes required to maintain nutrition, food safety and diet plan. It includes interpreting nutrition and hydration, ensure food safety, calculating calorie requirement of client, interpreting vitamins, and following diet plan.
Nominal Hours	30 Hours
Elements of competency	Performance Criteria <u>Bold &italicized</u> terms are elaborated in the Range of Variables
1. Interpret Nutrition and Hydration	 1.1 Cultural & religious factors are identified and followed 1.2 Food Elements and their functions are described 1.3 Factors affecting nutrient intake are deduced 1.4 Signs of poor nutrition on human body are identified 1.5 Balanced nutritious diet is interpreted 1.6 Hydration and dehydration are interpreted 1.7 Menu is planned following guidelines and nutrition value
2. Ensure food safety	 2.1 Food safety is interpreted 2.2 Food is prepared following specified procedure ensuring food safety 2.3 Hygiene is maintained during food preparation 2.4 Food storage procedure is followed as per standard and WHO guideline
3. Calculate calorie requirement of client	 3.1 Calculate calorie requirement according to Basal metabolic rate (BMR) 3.2 Calorie values of <u>common foods</u> are listed. 3.3 Food plan is prepared according to client's calorie requirements.
4. Interpret vitamins	4.1 Vitamins and source of vitamins are identified4.2 Functions of vitamins are explained4.3 Common signs of vitamin deficiency are interpreted
5. Follow diet plan	6.4 Client's diet plan is interpreted6.5 Diet plan is followed as per care plan
Range of Variables
